EXPERTISE

- Management Skills
- Creativity
- Specialized in academic
  teaching

LANGUAGE

- Arabic
- English (basic)

WORK EXPERIENCE

I have experience in programming languages,

Also experience in Microsoft Office suite programs

And in designing SQL databases, and designing front-end websites

I worked as a research assistant (professor) at Shatt al-Arab University College

I was a member of the Google student team to solve programming problems and hold in-person and electronic lectures.

SKILLS

I have skill in programming and designing interfaces in

different programming languages, high speed in carrying

out the work required of me, and converting ideas into

something tangible that can be used in the future.

EDUCATION
